

DOG AND BEE

How nice to relax on a hot summer day, and enjoy a relaxing snooze.

BUT WHAT'S THIS?
AARGH! A BEE!!!

- Build this fabulous automaton and see the dog react with horror as a bee descends from the bushes and nearly lands on his nose!
- Step-step instructions supplied, and many diagrams to help with assembly.
- All you'll need is a craft knife and some glue to build 'Dog and bee.'
- With cute butterfly or scary spider option!
- Not suitable for children, a fair degree of patience (and that sharp craft knife!) are needed.
